CONSTRUCTION

Illuminated Bollard: One-piece construction from reinforced High-Performance Concrete (HPC) for exceptional strength, durability and weather resistance. Features a stainless-steel faceplate, clear glass lens, and a fully shielded LED light source that minimizes glare while directing illumination downward, enhancing pedestrian safety and visual comfort. Bollard has an integrated LED driver and is ETL listed for wet locations.

Non-Illuminated Companion Bollard: One-piece construction from reinforced High-Performance Concrete (HPC) for exceptional strength, durability and weather resistance. Designed with contours that complement the illuminated version, ensuring visual consistency throughout the site.

All Wayne Tyler concrete products are factory-sealed with a moisture barrier additive to protect against corrosion and prevent cracking due to freeze-thaw cycles. Mounting hardware provided.
